#### How To Darken Gray Hair

By a Specialist

A very satisfactory preparation which darkens gray hair and acts off a corrective agent for dandruif and other diseases of the scalp can be made at small expense and in your own home by dissolving a small box of Barbo Compound in 7 ounces of water and then adding an ounce of bay rum and a quarter ounce of glycerine. Any drug store can furnish these ingredients. This is to be applied once a week until the hair is sufficiently darkened, then every two weeks to keep the hair soft and glossy and the scalp in a healthy condition. It may be used with equal success in darkening the beard. This is a preparation that gives splendid results, both as a hair darkener and a remedy for all scalp disorders, and a remedy for all scalp disorders, and is well worthy of a trial. You will find it far superior to the ordinary store preparation and much less ex-
